SOVEREIGNTY ALLIANCE FOR EUROPEAN NETWORK TECHNOLOGY

FRITZ!

European Digital Sovereignty

Your FRITZ! Benefits

European Sovereignty is Your Strategic Choice

Fully developed and manufactured in Europe.
Independent from non-European cloud ecosystems.
100% proprietary software stack (FRITZ!OS).
Full control over roadmap, data and integration.

Reduce external dependencies, strengthen operational resilience and align with evolving European requirements.

More control.
Less dependency.
Long-term stability.

Gain Security Leadership & Risk Mitigation

No critical CVEs since 2015.
No CVE entries at all since 2021.
Dedicated Program Management Security Team since 2014.
100% in-house development & rapid response cycles.

Minimize exposure to cyber threats, operational disruption and supply chain vulnerabilities.

Protect network edge.
Reduce operational risk.
Strengthen trust.

One Platform. Boost Efficiency. Lower Your Costs.

One unified FRITZ!OS across Fiber, DSL, DOCSIS, FWA.
Zero-touch provisioning & seamless onboarding.
Unified APIs and feature roadmap.
Fast integration and deployment cycles.

Simplify lifecycle management, reduce operational overhead and accelerate time-to-market.

Lower OPEX.
Scale efficiently.
Simplify operations.

Scale Your Commercial Impact & Customer Value

Up to +9€ ARPU uplift per month.
Up to 800€+ customer lifetime value <1% failure and return rates.
Industry-leading Net Promoter Score.
Strong premium brand perception across Europe.

Drive loyalty, reduce churn and maximize long-term customer profitability with premium-quality hardware.

Increase ARPU.
Maximize lifetime value.
Strengthen your brand.
