The story of a transformation

Falling in love with Le Mezo upon discovering it in 2019,

Marie and Sébastien are the two founders of Domaine Le Mezo. To acquire and restore this remarkable site, they brought together around them strong partners and collaborators committed to enhancing this heritage. After more than three years of work, the transformation of Mezo brings this exceptional place back to life.

By tracing its history, Le Mezo reveals its first traces in the 15th century. The château was built in the second half of the 18th century on the site of an earlier manor mentioned as early as 1427.

Later, the outbuildings, renovation, and extension took place in the second half of the 19th century.
This entire historic heritage has been adapted to its time, allowing it to continue through the centuries.

Committed to More Responsible Hospitality

Selected initiatives shaping our environmental and social approach

At Domaine Le Mezo, environmental commitments are approached through measurable actions, operational choices and continuous improvement.
Our approach is supported by recognised certifications and concrete initiatives implemented across the estate.

Certifications & Recognition

- European Ecolabel certified (certification obtained in 2026)
- Green Globe certified (international certification for sustainable tourism and hospitality management)

Energy & Resources

- Renewable heat production

Part of the estate's heating needs is supplied through a biomass heating network using locally sourced wood chips and miscanthus cultivated on site, supported in part by ADEME.

- Renewable electricity

100% of the electricity supplied to the estate is certified as originating from renewable sources.

- On-site solar generation

Solar panels contribute to producing part of the estate's electricity consumption.

Water & Circular Practices

- Filtered water stations

Filtered still and sparkling water stations are available across the estate to help reduce single-use plastic consumption.

- Ozonated water cleaning system

An ozonated water generation system is used for part of the cleaning and sanitation process.

Mobility & Local Impact

- Electric mobility facilities

Six fast electric vehicle charging points are available on site.

- Local roots & team engagement

We prioritise local employment and regularly raise awareness among our teams on environmental and social topics.

Biodiversity & Long-Term Stewardship

The estate integrates biodiversity preservation and responsible land management into its long-term development approach.

The initiatives presented above reflect selected actions implemented at Domaine Le Mezo and should not be interpreted as representing the entirety of the estate's environmental impact.

Customer Testimonials

"I would like to warmly thank you for your welcome and professionalism during our evening yesterday! The employees of BPGO of Eastern Morbihan and myself had a wonderful time in the magnificent setting of Domaine du Mezo!"

Jérôme Garel, Group Director, BPGO Eastern Morbihan.

"We had a wonderful team experience at Domaine Le Mezo. From the warm welcome at our very first contact […], to the organisation of our seminar day […], everything was perfect. The setting is exceptional, beautifully renovated and decorated. The staff are attentive and highly efficient in meeting our needs, the lunch was delicious, and the breaks were just as enjoyable! […] Thank you for doing everything to make us feel comfortable. We will be back."

Christophe Lamy, Director of Didalyse.

"A huge thank you from the team for this wonderful event and your unwavering availability! I have nothing but excellent feedback on the quality of the venue and the services provided—well done."

Jérémy Mallet, Communications and Network Engagement Officer, Paysages de mégalithes.

"I would like to thank you for everything: the welcome was perfect, the venue sublime, and the meals divine… by general consensus, we had a wonderful time at Le Mezo."

Anne Simode, Communications Manager, Prodiss.
